

MD ATIF AZIZ

Laravel Full-Stack Developer · PHP · Laravel · MySQL · REST API · React.js · Node.js · Vue.js · TypeScript · PHP
Dhaka-1212, Bangladesh | +880 1931-117567 | [GitHub: AtifAziz600](#) | [Portfolio](#) | mdatifazizfahim@gmail.com | [LinkedIn](#)

PROFESSIONAL SUMMARY

Full-stack developer with 1.5+ years of professional experience building scalable, production-grade web applications for e-commerce, LMS, and corporate sectors. Proficient in Laravel, Vue.js/Nuxt.js, React.js/Next.js, Node.js, and RESTful API development, with expertise in OOP, MVC architecture, and agile delivery. Delivered 3 live platforms serving real customers in production and contributed to multiple simultaneous client projects in fast-paced team environments. Seeking a Mid-level Application Developer role at a software-focused company where I can contribute Laravel backend expertise, RESTful API development, and full-stack delivery.

TECHNICAL SKILLS

Frontend	Vue.js (v2 & v3), Nuxt.js, React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, Composition API, Vuex, React Hooks, SPA, SSR
Backend	PHP, Laravel (MVC), MySQL, SQL Server, REST API Design, Node.js , Express.js, MongoDB
Mobile	Flutter, Dart, React Native, Expo
Tools	Git, GitHub, Vite, Composer, NPM, Postman, VS Code, Cursor
Methodologies	Agile/Scrum, Atomic Design, Component Architecture, Code Review, Technical Documentation

KEY PROJECTS

Apagor – E-Commerce Platform [apagor.com](#)

Laravel · Nuxt.js · Vue 3 · MySQL · Tailwind CSS · REST API · SSR/SEO · JWT Auth

- Implemented complex SQL queries and relational database schema design in MySQL for product variants, order management, and inventory tracking. For technical problem Live is not available

CogniPath – An AI-Powered Learning Management System: [cognipath.net](#)

React.js · Next.js · Node.js · Python · LLM Integration · REST APIs

- Contributed to an AI-powered LMS integrating Large Language Models (LLMs) for personalized learning. Built role-based dashboards (student/instructor/admin), dynamic course/quiz rendering, and SSR-optimized Next.js pages.

Salsabil Publications—Publishing CMS [salsabilpublications.com](#)

Laravel · Vue 3 · MySQL · Tailwind CSS · REST API

- Designed and optimized MySQL database architecture for book inventory, with parameterized queries and structured ORM relationships via Laravel Eloquent.

Noor Alam Machineries – B2B Industrial Supply Platform [nooralammachineries.com](#)

Laravel · Vue 3 · MySQL · REST API · Advanced Search · SEO

- B2B e-commerce and supply chain platform for industrial/marine machinery: high-performance inventory, advanced multi-faceted search/filtering, real-time stock availability, and secure admin portal for RFQ tracking.

PROFESSIONAL EXPERIENCE

Creative Tech Park

June 2024 – November 2025

- Engineered 3+ production web applications using Laravel (MVC) and Vue.js/Nuxt.js — delivering REST APIs, JWT authentication, and role-based access control (RBAC) for multiple simultaneous live client projects.
- Led the full-stack build of the Apagor e-commerce platform (apagor.com): product catalog, dynamic product pages, cart/checkout pipeline, order management workflows, and merchant admin dashboard serving thousands of real-time SKUs.
- Delivered SEO-optimized Nuxt.js SSR corporate websites for Noor Alam Machineries and Car Corporation — improved core web vitals, page structure, and organic search discoverability through server-side rendering.
- Designed a reusable Vue.js component library using atomic design principles, adopted across all company projects—reducing estimated frontend development time by ~30% and eliminating redundant code.
- Integrated Vue.js frontends with Laravel REST APIs for full CRUD operations; enforced parameterized MySQL queries, input validation, and secure session/token handling to prevent SQL injection and data breaches.
- Collaborated in agile sprints with UI/UX designers, backend engineers, and QA—translating wireframes and product requirements into pixel-perfect, production-ready features delivered on schedule.

E-learning and Earning Ltd.

February 2024 – August 2024

Frontend Developer Intern

Mirpur, Dhaka 1207

- Developed responsive UI components for e-learning modules using React.js and JavaScript, contributing to a platform serving active student users.
- Integrated REST APIs for dynamic content rendering, user authentication flows, and quiz/course data display under senior developer mentorship.
- Participated in code reviews, version control workflows (Git/GitHub), and sprint planning — gaining hands-on exposure to agile team practices and production deployment cycles.

Freelance & Independent Projects

December 2025 – Present

Self-Employed Full-Stack Developer

Remote

- Continuing active development on personal and client projects, deepening expertise in Node.js, Express.js, and advanced full-stack architecture patterns.
- Completed 3 intensive professional certifications (Jonas Schmedtmann, Maximilian Schwarzmüller, and Dr. Angela Yu) totalling 300+ hours—covering the full JavaScript ecosystem, Node.js backend, and full-stack web development.
- Contributing to open-source repositories and portfolio projects on GitHub (AtifAziz600), demonstrating practical application of modern web frameworks and industry best practices.

EDUCATION

Daffodil International University

January 2020 – December

2023 *B.Sc. in Computer Science & Engineering (CSE)*

Dhaka | CGPA: 3.24 / 4.00

Focus: Software Development, Web Technologies, Databases, Object-Oriented Programming (OOP)

CERTIFICATIONS

- The Complete JavaScript Course 2024: From Zero to Expert! — Jonas Schmedtmann (Nov 2024 – Apr 2025)
- NodeJS – The Complete Guide (MVC, REST APIs, GraphQL, Deno) — Maximilian Schwarzmüller (Nov 2024–May 2025)
- The Complete Full-Stack Web Development Bootcamp — Dr. Angela Yu (Nov 2024 – Apr 2025)

LANGUAGES

Bengali—Native English—Professional Proficiency (Reading, Writing, Communication)
